

# Crestron Mercury<sup>®</sup>

All you need to transform any room into a powerful conferencing, presentation, and collaboration space.

Full open SIP conference phone

One-touch room booking and meeting joins

Bluetooth<sup>®</sup> audio pairs with mobile phones

High visibility mute indicator

Supports any video conferencing service — others lock you in to only one

Unbelievable microphone & speaker quality

Enterprise provisioning & management

Built-in AirMedia<sup>®</sup> for wireless presentation

Onscreen room availability and meeting details

Built-in occupancy sensor for usage data & automation

# The most complete room solution

Only Crestron Mercury enables people to work together, regardless of location or web collaboration application. All others lock you into a single platform. Run native Microsoft Teams® or Zoom Rooms® software, or BYOD mode. You get all the must-have conferencing and collaboration tools in one easy-to-use console.
